

A Geelong Manufacturing Excellence Network Event

Manufacturing for the Future

Includes Plant Tour at Marand Geelong

With a Blue Chip customer base, Marand designs and manufactures complex innovative equipment, supplying precision engineered solutions globally.

Tour the plant where Marand manufacture the Joint Strike Fighter F-35 engine installation and removal trailer and the F-35 Vertical Tail assembly.

See and hear how Marand:

- Creates value for their customers, developing strong relationships, solving problems and consistently innovating on behalf of the customer
- Develops a technology strategy to regenerate existing equipment, optimise available resources and capitalise on emerging technologies
- Utilises Lean methodologies to ensure efficient operations and skill transfer

WHEN: Wednesday 17th June, 2015

WHERE: Marand Precision Engineering, Ford Plant, Princes Highway,
Geelong

(Location and car parking map will be provided on registration)

START: Registration at 8.45 am for a 9.00 am start

FINISH: 11.00 am

COST: FREE to GMC / ENG Members

\$30 to non members

Due to high demand for this event, a limit of two people per company has been applied. If you would like a further place please add to the waiting list upon booking and we will contact you if we can accommodate.
