

Lean – Getting it done!

Wednesday 21st Feb 2018

9:00 am registration, 9:15 am start – 12:00 pm Close

Hinchcliff Room, Eastern Hub Geelong, 285A McKillop St, East Geelong VIC 3219

The Workshop

- Have you heard about Lean and would like to learn more?
- Have you had difficulty getting Lean going at your organisation?
- Have you had difficulty maintaining or sustaining a system that is in your organisation?
- If you have been asking similar questions, **then this workshop is for you!**

This interactive workshop will take you through a practical reflection of lean principles, and the challenges we face when implementing this in our organisations.

We will get clear on what lean is, and its key principles.

Then we will draw out key challenges people have had implementing it in their organisations, while sharing some of the facilitators' challenges from direct experiences in different organisations.

We will touch on some strategies used to overcome these challenges.

Lead by experienced lean practitioners with experience in Service, Manufacturing, both large and small businesses. We will have a focus on where you can start your journey, or kick start your improvements.

This interactive workshop is aimed at everyone who has an interest in making improvements in their organisation, and are looking for ideas as to how to go about it.

Meet other people who are achieving excellent results, and if you're not, find out how to succeed!
